

NAOBO

NAOBO is a flexible chassis mounting and adaption solution with cable strain relief to meet any kind of standard fiber connector (z.B. LC, SC, ST). It can be fixed to a rack with a cable tie. The breakout adapter can be mounted straight or angled.

Breakout-Adapter-Kit consists of 1 NAOBO plastic housing, 1 counter nut, 1 90° rear shell, 1 PG-gland, 1 cable tie and 2 screws.

NAOBO can only be used for all opticalCON® DUO and opticalCON® QUAD D-shape chassis.

Straight mount

Angled mount
