

## opticalCON SPLIT

Multichannel (up to 12 channel) cable solution based on opticalCON DUO, QUAD or MTP®.

Excellent cable retention due to aramid yarn, black PUR outer jacket.

The opticalCON cable connector accommodates PC optical channels based on conventional and proven LC or MTP® connectivity protected by a ruggedized and durable all-metal housing. It features a spring loaded push-pull locking mechanism and an excellent cable retention utilizing aramid yarn. The optical connection is exceptional well protected against dirt and dust by an automatically operated sealing cover.

The cable connector comes pre-assembled and is not available as a single component. The cable is available in different lengths and is packed either in a case, on drum or airspool.
