ASSEMBLY INSTRUCTION
ConvertCON | NC3FM-C, 3 Pole XLR Cable Connector

1. Hold
2. Slide back

Slide the boot onto the cable.

Prepare cable as shown.

Slide back the shell (change gender from female to male).

Insert wires into the terminals and solder them.

Put chuck onto the cable and slide insert & chuck into the housing.

Attention: Pay attention to align the chuck on the guiding key.
Handling

Finish installation by turning the boot onto the connector.

Easy selectable gender from male to female and vice versa:
To change gender hold the boot with one hand. Press the push down with the other hand and slide the shell to desired gender.

ATTENTION
• convertCON does not lock with all chassis connectors!
• Pay regard to orientation while connecting two convertCON.
