**Step 1: Separate the connector**

- **A** Untighten the screw.
- **B** Remove the flange.
- **C** Pull out the “Push”.

**Step 2: Assembly of SE8FD (KIT)**

- **D** Install the new “Push” into the housing.
- **E** Position a cable housing for centering the kit.
- **F** Position the rubber gasket.
- **G** Finish the installation by mount the flange and fasten the screw.

**NOTE:**

Lubricate sealing lip with silicon from time to time.
