Subject:

Investigation regarding mandatory certification in China within the bounds of Chinese Compulsory Certification (CCC).

Products:

- 1.) XLR Cable Connectors; XLR Chassis Connectors
 - 2.) SpeakON Cable Connectors, speakON Chassis Connectors
 - 3.) powerCON TRUE 1 TOP; powerCON 20A; powerCON 32A; powerCON TRUE1
 - 4.) Dante Interface: NA2-IO-DLINE; NRP1RU-2A; NA-MB-KIT
 - 5.) XIRIUM PRO
 - 6.) EtherCON Cable Connector, EtherCON Chassis Connector
- Customs HS- Codes: 85366953 and 85176200

During the verification of the market based on the feedback from Intertek China from 15th of April 2019, we have found that:

1. First Catalogue of Products Subject to Compulsory Certification (AQSIQ/CNCA):
The above-mentioned products are not categorized in the list of products subjects to compulsory certification. These products are not under the scope of CCC, but for the product can be done the consignment inspection. The consignment inspection is voluntary, but it can help to sale on the network platform or market random inspection.
2. A comparison with the latest catalogue of custom tariff codes for the products subject to compulsory certification has shown that the above-mentioned codes are not contained in the list.

Intertek accepts no responsibility for the acceptance of these products in China and cannot be held liable for any actions related to the certification or compliance of said products. We recommend that research be continued regularly to ensure that legislations have not changed since the first day the research was completed.

We look forward to discussing this final report with you. Please let us know if you have any specific questions.

This evaluation must be repeated every year, as standards in the respective country may change.
